

GEORGIA | 2010 | ISSUE I

MEMBER Focus

SURVEY RESULTS SHOW WELLCARE MEMBERS ARE SATISFIED

We at WellCare want our members to be happy with the health care they receive.

We recently sent out a survey to make sure of this. The results showed that most of our members are happy with their doctors and with WellCare.

Here is some of the feedback from our members:

- 90.8 percent of the parents or guardians of child members reported being able to obtain care for their children right away
- 94.6 percent agreed that their doctors showed respect for what the parents or guardians of child members had to say

- 91.2 percent of the parents or guardians of child members reported being treated with courtesy and respect by Customer Service staff
- 86.1 percent of parents or guardians of child members highly rated their child's personal doctor
- 92.4 percent of adult members reported their doctors showed respect for what they had to say
- 90.8 percent of adult members agreed their doctors listened carefully to them

We also surveyed our doctors to make sure they are happy with WellCare. We are working on ways to improve their satisfaction too.

We would like to thank the members who helped us by filling out and returning the survey. Your survey answers help us find out what we can do to make you happier with your health care. Thanks for helping us to help you.

Member and provider satisfaction surveys are conducted by The Myers Group.

Your survey answers help us find out what we can do to make you happier with your health care. Thanks for helping us to help you.

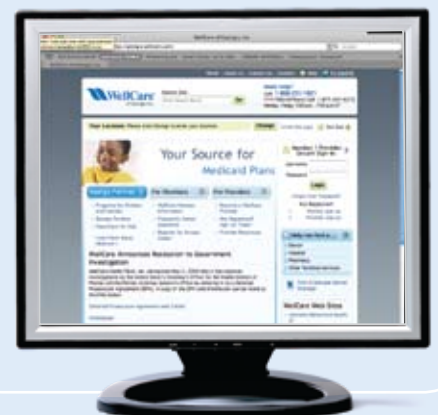

MEMBER MATERIALS UPDATE

Remember to check the WellCare Web site often to keep up with what's new. Just go to georgia.wellcare.com and click on *For Members*. You can find all this and more:

- Member handbook
- Information about Georgia Families
- How to find a pharmacy
- How to find a dental provider
- Pregnancy health guidelines
- Health Check guidelines
- Quick reference guide

Call us to ask for a handbook. Just call us at 1-866-231-1821 (TTY/TDD: 1-877-247-6272). Representatives can help you Monday–Friday, 7am to 7pm Eastern. You can also leave a voice mail message for Customer Service after hours.

You can get help with different languages too. And you can ask for member materials in a different format. This includes a different language, large print and audio tapes. There is no charge.

HOW DOES QUALITY IMPROVEMENT (QI) “RATE” OUR SERVICE?

We are pleased to tell you about our Quality Improvement (QI) Program. It allows us to make sure we have ways to rate our service to members and providers. We also track the care we give to our members.

Some highlights from the 2009 QI Program include:

- Increased key Early and Periodic Screening, Diagnostic and Treatment (EPSDT) screening rates
- Sent letters to members to remind them of their primary care provider’s (PCP) role and the importance of seeking preventive health care
- Reached out to members reminding them to get preventive services and management of their chronic disease condition
- Reviewed PCP medical records to make sure practices were compliant
- Refined focus on patient safety
- Worked to provide good customer service
- Enhanced ER outreach program through phone and written correspondence to targeted members
- Enhanced the prenatal program through community-based education sessions using a “Baby Shower” theme that included information on prenatal, postpartum and infant care

**You can get a copy of our QI
Program guidelines.
Just fax a request to the
QI Department.**

OUR GOALS FOR 2010

- Increase the number of members who get well-child visits
- Continue to educate members and providers about EPSDT/Health Check, lead screening and immunizations
- Continue to monitor compliance with preventive health and clinical practice guidelines through medical record review
- Continue to work with community agencies to improve the care of our members
- Coordinate care and promote patient safety
- Increase focus on sound data analysis
- Look for ways to make our processes better
- Prepare for a successful NCQA Health Plan Accreditation in 2011
- Maintain a state of readiness for annual EQR
- Collect health care quality data for our Medicaid members and use it to improve our services

You can get a copy of our QI Program guidelines. Just fax a request to the QI Department. Our fax number is 1-877-277-1810. We want to give you even better health care and service in 2010.

AVOID GIVING OTC COUGH AND COLD MEDICINES TO KIDS 2 AND UNDER

The U.S. Food and Drug Administration (FDA) urges that children 2 years and younger not be given over-the-counter (OTC) cough and cold products. In kids this young, these over-the-counter medicines can cause:

- Convulsions
- Rapid heart rates
- Loss of consciousness
- Death

The FDA gives these tips to parents and caregivers:

- Do not give children medicines labeled for adults only.
- Call your doctor or pharmacist if you have any questions about using cough or cold medicines in children 2 years and younger.
- Choose OTC medicines with child-proof safety caps. After each use, make sure to close the cap tightly. Store them where children cannot see or reach them.
- Check the “active ingredients” part of the DRUG FACTS label. This will tell you what symptoms they are meant to treat.
- Be very careful if you are giving more than one medicine to a child. This could be harmful to him/her.
- Follow the directions on how to use the medicine. If you have questions, ask your doctor or pharmacist.
- Use only the measuring items that come with the medicine. Do not use common household spoons. They come in different sizes and are not meant for measuring medicines.
- Know that OTC cough and cold medicines do not cure the illness. They treat symptoms but do not make you better.
- Do not use these products to make your child sleepy.

QUALITY DENTAL CARE IS OUR GOAL

DentaQuest wants to make sure all of your services are of high quality. They are always looking at their services and making them better whenever they can.

DentaQuest has a Quality Improvement Program. It seeks to measure how well they are doing.

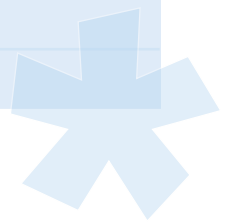

The goal is for all members to get quality dental care. They take a close look at all of the plan dentists. They want to make sure that they provide the best dental care for you. DentaQuest also checks to see that the dentists use the most recent research to give members that care.

DentaQuest looks at the Quality Improvement Program every year. You can get a copy of their findings. Just call DentaQuest at 1-800-516-9615.

PREVENTIVE HEALTH GUIDELINES FOR MEMBERS: NEWBORN TO 21 YEARS OLD

AGE	WELL-BABY CHECKUPS AND SHOT GUIDE
Newborn	Well-baby checkup* at birth. Hearing test. Newborn screening blood tests and hepatitis B (HepB) vaccine.
3–5 Days	Well-baby checkup* as recommended by your doctor, including newborn screening blood tests and hepatitis B (HepB) vaccine if not done at birth. This visit is especially important if your baby was sent home within 48 hours of birth.
1 Month	Well-baby checkup*. Second dose of HepB vaccine. Newborn screening blood test if not already completed.
2 Months	Well-baby checkup*. Diphtheria, tetanus and pertussis (DTaP), Rotavirus (RV), Polio (IPV), Pneumococcal conjugate (PCV), and Haemophilus influenzae type b, (Hib) vaccines. Newborn screening blood test if not already completed.
4 Months	Well-baby checkup*. DTaP, Hib, IPV, PCV and RV vaccines.
6 Months	Well-baby checkup*. DTaP, HepB, IPV, PCV, influenza, Hib and RV vaccines. Blood lead risk assessment.
9 Months	Well-baby checkup*. Blood lead risk assessment.
12 Months	Well-baby checkup*. Blood lead test, hemoglobin or hematocrit, Hib, measles, mumps, rubella (MMR), hepatitis A (HepA), varicella (chickenpox), PCV and influenza vaccines. Dental visit as need identified**.
15 Months	Well-baby checkup*. DTaP vaccine. Urine test.
18 Months	Well-baby checkup*. Second dose of HepA vaccine (6 months after the first dose), dental visit.
24 Months	Well-baby checkup*. Blood lead test, influenza vaccine, dental visit.
30 Months	Well-baby checkup*.
