

# Georgia Healthy Families is Now Named Georgia Families

WELLCARE HEALTH PLANS, INC.  
THE WELLCARE GROUP OF COMPANIES

March 5, 2007

Dear Provider,

Today, the Department of Community Health (DCH) announced the name change of its Medicaid program, Georgia Healthy Families, to **Georgia Families**. While the name is new, the program and its benefits, policies and contact information will remain the same.

All providers contracted with a Care Management Organization (CMO) participating with Georgia Healthy Families, as is WellCare, will continue to participate with Georgia Families. Care management requirements and guidelines will remain the same. However, all materials reflecting the new Georgia Families program name will be available as of April 13, 2007.

Current Georgia Healthy Families members will remain assigned to their chosen Primary Care Provider (PCP) and CMO under the Georgia Families name. Our network providers should continue to accept WellCare member ID cards that contain the Georgia Healthy Families logo and ensure eligibility by using our Provider Hotline's automated eligibility status system at **1-866-231-1821** or through the Web at <http://georgia.wellcare.com>.

We thank you for your participation with WellCare and your exceptional service to our members. Please contact your Provider Relations Representative should you have any questions regarding this notice.

Thank you,  
WellCare of Georgia, Inc.
